Biography

Birth date 30/09/1981

Introduction I have been painting since I left Art College as a trained printer. Painting was a practical solution to my lack of living space. I taught myself to paint working from books, studying paintings and looking over people's shoulders to see what was on their palette. I think this is what gives me an individual painting style because I have created my own solutions to representing subjects.

**Artist
Statement**

I can usually paint a face in 2 hours, after which I will make refinements from photos if it is needed. I will make a note of the surroundings and clothing but to save time I work from a photograph unless the surroundings are integral to the portrait. I would require one sitting per face.

I will work from photographs but only if I take the picture. I am a trained photographer and I know exactly the information I am looking for as a painter and how to find it in taking a photo.

I will travel to paint at the sitter's home or a preferred environment. I also have a portrait studio in Norwich with a range of lighting, furniture and backgrounds.
