Vivien Mallock

Biography

Birth date 1945

Introduction Vivien Mallock's career has encompassed a wide range of portraits and other commissions in bronze, ranging from individual half life size portraits of infants and children to 9 foot group war memorials in France and central London. Early on, she completed a number of projects in Normandy and England during the run, up to the anniversary celebrations of D Day and VE Day, whose subjects were inevitably military in character. However, her more recent work has included sensitive and intensely personal portraits of HM The Queen Mother and HRH The Prince of Wales.

Not all her work is portraiture; she is currently working on a Jubilee statue for installation in Portsmouth in 2002.
